● What do I want to learn or understand better?

We have completed most of our epics and now we will start writing the final report. During the report i want to reflect on the scrum principles we have learned and how they played out in practice. During the writing of the report i hope to learn more about the Scrum process.

● how can I help someone else, or the entire team, to learn something new?
I try to share my knowledge on Scrum and will try to help out best i can.

● what is my contribution towards the team's use of Scrum?
I fill out the KPI and discuss it with the team.

● what is my contribution towards the team's deliveries?
This sprint me and Nicklas finished the Game Over menu, the pause menu and also fixed a bug with the life counter. These were things that were of high priority to our product owner.
